

# Medición y Cálculo del error

- Itemizations

# Medición y Cálculo del error

- Itemizations
  - are nested

# Medición y Cálculo del error

- Itemizations
  - are nested
  - and labelled
    - even nested deeply

# Medición y Cálculo del error

- Itemizations
  - are nested
  - and labelled
    - even nested deeply
  - on different levels

# Medición y Cálculo del error

- Itemizations
  - are nested
  - and labelled
    - even nested deeply
  - on different levels
- with formulas like  $\sum_{i=0}^{\infty} a_i \cdot x^i$

# Different page transitions

- Switch it on for a page

# Different page transitions

- Switch it on for a page
- But must switch off explicitly

# That's it

Just a small example.

You may go **back** to start.
